Experience

Quality Control Engineer

ZT Systems

Oct 2022 - Present (3 months)

- Check the server for any errors or malfunctions, logically and physically
- Usage of Linux terminal to run proprietary testing code (CentOS)
- Rack and unrack individual nodes, checking for cable integrity and component malfunctions
- Replacing faulty components and registering the new ones
- From the data collected from inspections creating reports for the quality manager of the company to highlight issues, detail the number of defective products being produced, and explain where improvements can be made
- Checking that the product line adheres to standards and procedures and complying with all requirements
- Configuring network switches and connecting the racks to the existing infrastructure

Health and well-being

N/A

Dec 2021 - Sep 2022 (10 months)

- Career break started because of gastrointestinal issues, decided to also focus on mental health care.
- Traveled around Europe in a van, volunteered at local farms, learned how to properly cook healthy food for myself, expanded my network, and other forms of leisure.

Quality Control Engineer

ZT Systems

Apr 2021 - Dec 2021 (9 months)

Systems and Network Engineer

aiCAD

Sep 2019 - Apr 2021 (1 year 8 months)

- Maintenance of both hardware and software for desktop and laptop computers, networking of new computers, mounting / dismounting server racks and positioning the necessary equipment in the respective rack.
- Configuring network traffic monitoring servers, software installed on network computers, both for Windows and Linux.
- Planned and configured Windows Server 2016 and 2008 R2 (DNS, Active Directory, User Policy, DHCP), good knowledge of LAN, WAN, firewalls, switches, Windows Server, VMware, vSphere.
- Configuring Cisco network equipment (routers and switches).
- Worked alone in my shift due to staff shortage, but had plenty of interaction with other departments such as accounting and acquisitions (drafting contracts and buying equipment) and reported everything directly to the manager, planning extensions to the network together.
- Trained new colleagues

Senior Client Consultant

Mozipo Group

Jan 2019 - Sep 2019 (9 months)

- Explicit presentation, in a professional and pro-sales manner of the products and their advantages as well as the promotion of Mozipo IFN.
- Collection and verification of credit documentation from clients.
- Creating marketing strategies for our products.
- Preparation of commercial and activity reports to the company's management.
- Taking phone calls and guiding potential customers to complete the application.
- Planned and organized the documents and the workplace as being requested by the branch manager who took a liking to my organizational creativity and innovation.

Mixologist

Stavros Complex

Feb 2016 - Nov 2017 (1 year 10 months)

- Served as a hospitable and fast-working bartender in one of the city's most high-end restaurants.
- Worked in a collaborative manner with other restaurant employees to ensure outstanding customer experiences.
- Managing the workplace, arranging bar tending staff to best accommodate changing density of guests.
- Rotated inventory and kept track of stock, making recommendations for ordering.

Education

Universitatea Româno-Americană din București

Bachelor's degree, Computer/Information Technology Administration and Management

2018 - 2021

Studied economics and management in the first year followed by two years of computer science. Specialized in digital marketing and commerce systems.

"Callatis" Theoretical Highschool (Mangalia)

Romanian Baccalaureate, Mathematics and Computer Science

2014 - 2018

Studied Mathematics and IT - Bilingual with English

Preparing the foundation and developing my interest in everything digital.
